

GREAT SALT LAKE IS AGAIN RISING

Railroad Officials Watching the Gauge at Midlake With Deep Interest.

OCTOBER OPENS WITH ADVANCE OF AN INCH

And Rain Has Fallen Since Reading Which Indicates Higher Level.

Railroad officials are closely watching the changing levels of the Great Salt Lake. It is of the deepest interest to the Southern Pacific and the Western Pacific, which, last season, encountered much trouble from high water washing out the fills. A gauge is kept at Midlake by the Southern Pacific, and on October 1, 1909, the level was forty-seven inches above zero. This year the first day of the month showed the level at forty-eight inches above, or one inch higher than a year ago. And as there has been a heavy fall of rain since October 1, when the record was read, it is evident that the lake has risen a few tenths of an inch. The record for the balance of the winter and early spring will be interesting, as the water reached the highest point in sixteen years in May last—five feet, eleven inches above.

Meanwhile the railroads have been raising the approaches to the Lynch cut-off and the grade of the Western Pacific in the lake to be prepared for further trouble. The work has been prosecuted without cessation all summer, and the cut-off trestle itself was not impaired.

SALT LAKE CASES SET FOR THIS MONTH

WASHINGTON, Oct. 4.—In some of the cases known as the Pacific coast cases, heard by the interstate commerce commission last year, an order was made by the commission that the carriers keep an account of receipts from freight traffic under existing tariffs and prescribed by the commission. This double account was to be kept for the months of June, July, August and September of this year, with a view to ascertaining whether the existing tariffs were reasonable. By the terms of the order the carriers were required to report to the commission by December 1.

Today an assignment of the so-called Reno, Nev., and San Francisco cases was made for October 21, in Washington, to hear evidence in support of an application by the railroads for an extension of time in which to make a report. The commission today also assigned the case of western freight tariffs for further hearing at Chicago on October 23.

ROCK ISLAND BRVES STATE RAILROAD COMMISSION

LITTLE ROCK, Ark., Oct. 4.—On the refusal of the Arkansas railroad commission today to permit the Rock Island Railroad company to resume the three-cent passenger rate in this state, Attorney General Busby, for that road, announced that the orders of the commission would be disregarded and the three-cent fare resumed.

The Rock Island put into effect a 23-cent rate a year ago as an experiment, refusing to abide by the action of the state legislature fixing the rate at 2 cents. The company now claims the 23-cent rate is not remunerative.

SECRETARY MILLAR COMING TO CONDUCT ANNUAL MEETINGS

Secretary Alexander Millar of the Union and Southern Pacific will arrive Sunday to conduct the annual meetings

A FEW DOSES END BACKACHE AND REGULATE KIDNEYS AND BLADDER

Your kidneys will surely act fine after taking Pape's Diuretic.

If your kidneys are disordered or you suffer with backache or bladder misery a few doses of Pape's Diuretic now will effect a cure.

Put an end to kidney trouble while it is only trouble—before it develops into Dropsy, Diabetes, Gravel or Bright's disease.

The moment you suspect any kidney, bladder or urinary disorder, or feel a dull, constant backache, or the urine is thick, cloudy, offensive or full of sediment, irregular of passage or attended by a scalding sensation, begin taking Pape's Diuretic as directed, with the knowledge that there is no other medicine, at any price, made anywhere else in the world, which is so

harmless or will effect so thorough and prompt a cure.

Pape's Diuretic acts directly upon the kidneys, bladder and urinary system; cleans, heals and regulates these organs, ducts and glands and completes the cure within a few days.

Pains in the back, sides or loins, rheumatic twinges, Prostatic trouble, debilitating headache, nervousness, dizziness, weakness, bilious stomach, sleeplessness, sadism or puffiness of the face, and many other symptoms caused by clogged, inactive kidneys, promptly vanish. Frequent, painful and uncontrollable urination due to a weak or irritable bladder is overcome.

Your physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, who prepare Pape's Diuretic—50 cent treatment—sold by every druggist in the world.

of the various roads to be held here next Tuesday, Wednesday and Thursday. It is not anticipated that any of the directors will be present save those who represent Utah on the boards, as the voting will be by proxy and is, in reality, merely a matter of form. The action taken by the board will undoubtedly be the action taken.

MISS PHOEBE SNOW JOINS WESTERN PACIFIC FORCES

The presence of Vice President Caldwell of the Delaware, Lackawanna & Western in the city Tuesday in close conference with officials of the Rio Grande and Western Pacific may be accounted for in the rather interesting fact that the road made famous by Miss Phoebe Snow, who traveled over the road of anthracite, has joined forces with the Gould lines and hereafter, every day, a package freight car will leave New York for San Francisco via the Lackawanna, Wabash, Missouri Pacific, Rio Grande and Western Pacific.

More Advances Suspended.

WASHINGTON, Oct. 4.—Advances in transcontinental freight charges varying from 5 to 10 cents a hundred pounds from points of eastern origin to Pacific coast terminals were suspended today by the interstate commerce commission until February 6, 1911, pending an inquiry by the commission into their reasonableness.

The order of suspension affects several hundred interstate carriers operating east of the Rocky mountains.

The tariffs filed with the commission were to have become effective on October 10. They apply to all commodity and class freight on westbound shipments to the Pacific coast, including lumber, cement and furniture.

No time has yet been fixed for a hearing as to the reasonableness of the proposed rates.

Livestock Hearing On.

KANSAS CITY, Oct. 4.—When the railroad hearing, in which livestock men are protesting against an increase in transportation charges between points on the Missouri and Mississippi rivers, was resumed before A. S. Hillyer, special examiner of the interstate commerce commission, here today, the evidence of the Chicago, Burlington & Quincy and the Chicago, Rock Island & Pacific railroads was introduced.

Attorneys representing the National Livestock association were prepared to introduce substantial evidence.

The hearing probably will end today.

Cotton Belt Meeting.

ST. LOUIS, Oct. 4.—The acquisition of two lines of railroad previously announced was approved at the annual meeting of the stockholders and directors of the St. Louis Southwestern Railroad company here today. Old officers and directors were re-elected, with the exception of W. A. Campbell, vice president. D. M. Morris was elected vice president with headquarters in New York. President Edwin Gould presided at the meeting.

Coal Cars Expensive.

CHICAGO, Oct. 4.—H. A. Sims, recalled to the witness stand in the Illinois Central graft case today, gave some interesting details of the alleged swindles practiced on the road. He said that in one instance the road was charged \$425 for 150 stake straps alleged

to have been placed on a single coal car. This was a manifest absurdity, he said, as two stake straps will fully equip a car. On another occasion, witness said, the road was charged for putting wheels on a fifty-ton coal car. This, he said, was another absurdity, as the maximum weight of coal cars is forty tons.

Big Ice Pond for P. F. E.

A. B. Corey, an Ogden contractor, has been awarded the contract for the construction of a mammoth reservoir or ice pond on the Pacific Fruit Express. The reservoir will cover twenty-seven acres and will be completed in time, so that the company may harvest more than one crop of ice there this winter. Other reservoirs of a similar kind are to be built by the Fruit Express from points of eastern origin to Pacific coast terminals.

Net Showed a Decrease.

In all the figures shown in the August report of the Interstate Commerce Commission, the net operating income of the Union Pacific increased was recorded except in the most vital point, that of the net operating income. This showed a big decrease. This bad showing is on account of the increased cost of operation mainly. It proves the contention of the railroad managers that the increased cost is making a fearful decrease in the net. The operating expenses are jumping up to about 15 per cent of the gross.

Salt Lake Steel Is Coming.

The contract recently made by the Salt Lake Route with the Colorado Fuel & Iron company for 12,000 tons of steel is being rapidly completed and every day a half dozen cars are on the front.

New Engine for Castle Valley.

The Castle Valley railroad has ordered a new locomotive (No. 3) from the American Locomotive company.

Now Reaches Two Million.

Dispatches from Chicago, now state that the amount of money received by the "graft" ring in the Illinois Central amounts to \$2,000,000.

Railroad Notes.

Crowds at the stations.

All roads lead to Salt Lake.

More coaches are in demand daily.

The sale of unclaimed baggage of the Oregon Short Line will take place this morning in the Dooly block.

The general offices of the Pacific Fruit Express have been moved from this city to Chicago.

George W. Wilber, the well-known publisher, arrived Tuesday in the private car conveyed and left for the Pacific coast in the evening.

Vice President D. B. Caldwell of the D. L. & W. arrived from the Pacific coast Tuesday and left for the east over the Rio Grande.

William Baker for many years check clerk at the Union Pacific transfer at Council Bluffs, has been promoted to foreman of the transfer yards at Cheyenne, Wyo.

I. A. Benton of the Rio Grande says that the present is the greatest conference of interest he has ever seen. He sent down eighteen extra coaches on Monday night.

The California rush on the low one-way rates continues. The Western and Southern Pacific have a daily service of 370 San Francisco. The Salt Lake Route has a heavy Los Angeles travel.

The Andover (Ohio) Citizen has an article showing the approval of the Sawdust continuous rail by Joseph Cooper, a prominent steel worker. Mr. Sawdust, who is a Salt Lake, is in Andover on business connected with his company.

The city of Phoenix, Ariz., has won its case against the Santa Fe on diverse passenger routings from the Missouri river.

All preparations have been completed for the opening of the engagement of the Frederick Moore stock company at the Shubert theater Thursday evening in a thrilling melodrama entitled, "A Fight for Love and Honor," in which will be seen a company of fourteen people with the production staged in as realistic a manner as money could produce it. The Moore company is to be seen at the Shubert throughout the balance of the winter season in a series of high-class melodramas, and no expense on pains will be spared to make the productions the finest of their kind seen here in many seasons. Mr. Moore is a talented leading man, who has been seen here in various theatrical attractions, including the presentation of one

of the prettiest, if not the prettiest, comedy drama ever written is the offering of the Garrick theater all this week. The play is called "A Virginia Courtship," and is a pretty love romance between a girl and a boy. The play is a member of the Ingels company are up to their usual standard of excellence, making a finished and beautiful performance in every detail. There will be a matinee this afternoon at 2:15. All next week William Ingels and company will appear in one of Mrs. Fiske's greatest successes, "The Little Rascals." The seat sale for this great play has commenced and indications are packed houses all next week.

Johnny Williams, in the role of Mrs. Rafferty, the Irish scrub woman with a knockout in either hand, in "The Police Inspector," at the Orpheum this week, is renewing pleasant memories in the minds of many Salt Lakeers who remember Mr. Williams well as a capable actor who long was a local favorite. The entire Orpheum bill is going well this week.

The size of the audiences at the Colonial this week is increasing nightly. Billy Clifford sings and dances as gracefully as ever, and the comedy of his latest show is very good. Mr. Clifford is never without a good chorus, and this year he has a prettier and harder working chorus than ever before.

Music lovers of Salt Lake who failed to be present at the Salt Lake theater on Tuesday night missed one of the greatest musical treats of the year. The occasion was the first appearance of another Utah song-bird before a Salt Lake audience as a star. Utah, as a state, has turned out more people than any other state in the union, and these song-birds from this state have always made good. They have sung in America, they have sung in Europe. Crowd heads have applauded. They will again just now, in Berlin, a Utah song-bird is delighting audiences in the German capital. Two others are entrancing Paris with melody. On the stage in America are others who are charming the people with their sprightly voices. One thing peculiar about these song-birds of this great big state of ours is that so many of them come from Utah counties from the Garden City of the state—and all of them have been pupils of Professor Lund of Provo. It may be that he is a magician in so far as music goes. He may hypnotize his pupils. But whenever they appear upon the stage, music is heard, and after they have heard the melody which these pupils of this man in Provo give to the world, they marvel.

Tuesday night a pupil of this musical magician of Provo made his first appearance before a Salt Lake audience. Her name is Florence Jepperson. She is a contralto voice, and it should be said that it is a delightful voice, a charming voice, clear as a bell. Miss Jepperson was a pupil of Prof. Lund. She studied in the New England Conservatory of Music, and is now connected with the B. C. college at Provo. She has a contralto voice, and she presented a fine opportunity to show what she could do. She sang several numbers which she gave were encored again and again.

Miss Jepperson was assisted by Francis Woodmansee, who is a soprano voice from Chicago. He has achieved a wonderful success in the east. During the past summer, he was a visitor here, and he was given a more than cordial welcome. His specialty is "graff" ring in the Illinois Central amounts to \$2,000,000.

There is one incident in "Going Some," which plays at the Colonial the first four nights of next week, around which the comedy whirled. It is the incident of a foot race for the purpose of regaining a photograph and set of records lost previously by one cowboy outfit to another. Rex Beach and Paul Armstrong have included enough live comedy lines and situations in "Going Some" to stock a good half dozen ordinary laughing shows.

Albini, the magician, opened at the Mission theater Tuesday night and made good the promises that preceded his appearance there. He is certainly master of his profession and greatly pleased the crowd that assembled to witness his

performance. His engagement concludes Thursday evening with a matinee. This afternoon and Tuesday afternoon, he entertains, he mystifies and he exposes, and he secures the entire attention of his audience. Tuesday night the theater was crowded at each performance, and as his fame goes forth today larger crowds are sure to greet him tonight. His tricks are new and many of them marvelous. Some of the most wonderful of his illusions are performed upon a perfectly bare stage, with no curtains, mirrors or the usual paraphernalia used in exhibitions of this kind. He is assisted by a very charming young woman, who appears and disappears with the facility of the fairies of old. Albini's card tricks are excellent and all through his act he indulges in a line of witticisms that greatly amuse and entertain. He changes his programme every night, giving each evening and at each matinee an entirely new line of acts. Thursday night he will give his great exposure of the noted medium and clairvoyants of the world, and his exposure occupies an hour and a half. The first show will open at 7 o'clock sharp and the second at 9 o'clock. All seats at the Salt Lake theater for three nights, commencing Thursday, October 6, with a Saturday matinee. Miss Starr will have for her support a company of refined and the scenic equipment will be identical with that provided by David Belasco for the run of the play at the Belasco theater in New York. The central figure of the play is a pleasure-loving woman, who is finally faced with an opportunity to begin a new and better life. The greater part of the play deals with her efforts to break off the old ties and

associations and take up with the unusual as the play is from many of view it is particularly notable in manner in which it is interpreted. Starr has achieved a brilliant success. The scenes of the play are laid amid the foothills of the eastern slope of Rockies, a typical west side of the boarding house in New York and fashionable apartment house metropolis.
